JOHN GLYN DAVIES.

Clerk—

Miss L. WILKES.

Junior Clerk—

Miss J. DAVIES. (From July 1949).

# ANNUAL REPORT

OF THE

## Medical Officer of Health

FOR THE YEAR 1949.

*To the Chairman and Members of the  
Coseley Urban District Council.*

LADIES AND GENTLEMEN,

During the period of the year ending 31st March Dr. W. A. McLennan, Area Medical Officer of Health, officiated as Medical Officer of Health, Coseley U.D.C. in an acting capacity.

The work of the Health Department has continued to grow in many aspects. Day to day work has gone on and the various new statutes, orders and regulations have increased this routine work.

Special attention has been paid to four major problems, viz. : Housing, Tuberculosis (improved living conditions for the Tuberculous patient, and Tuberculosis register), Immunisation against Diphtheria, and Atmospheric Pollution. There is still a serious Housing shortage and this shortage is a major public health problem. During the year an amicable agreement was reached with the Housing Department regarding priorities on health grounds and the scheme set up seems to be working fairly and smoothly. Work was started and continued on the re-organisation of the Tuberculosis register and many visits were made and note taken on living conditions. It is hoped this survey will be completed in 1950.

Concern was felt at the Immunisation state of school children in the area, and consequently enquiries were made concerning all

children in the 5-11 years age groups. As a result it was found that some 2,000 injections were required to bring the children up-to-date, and a start was made with the co-operation of Dr. Ramage, County Medical Officer of Health, and Dr. McLennan, Area Medical Officer of Health.

The co-operation of the Department of Scientific and Industrial Research was obtained in relation to Atmospheric Pollution and arrangements were made for the installation of recording apparatus. In the meantime many of the industrial concerns in Coseley were helpful in their approach to this problem which could well be tackled on a much wider basis.

The result of the department's work is reflected in the factual matter and statistical tables in this report and in those of previous years. You will note the further fall, as expected, in the live birth rate, and the increased death rate. The substantial drop in the infant mortality rate is most satisfactory.

No figures relating to M. & C.W. appear in this report as this is now an area responsibility. I am not impressed by the new system and it seems to me that separation of the work into (1) Administration, and (2) Clinical medical control, is arbitrary and clumsy. It is too early yet to condemn the scheme and more time is required for its study. Certainly an increase in the number of Health Visitors would appear to be more desirable than the multiplication of committees and clerical staff.

I have the honour to be,  
Ladies and Gentlemen,  
Your obedient servant,  
J. T. A. GEORGE.

## SECTION A.

### STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area of District in acres .....	.....	.....	.....	.....	3,294

Respiratory Tuberculosis .....	.....	.....	.....	0.50
Other forms of Tuberculosis .....	.....	.....	.....	0.08
Cancer .....	.....	.....	.....	1.31
Influenza .....	.....	.....	.....	0.14
Pneumonia .....	.....	.....	.....	0.4
Violence .....	.....	.....	.....	0.21
Diarrhoea and Enteritis (Children under 2 years) .....	.....	.....	.....	0.06

## SECTION B.

### GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

A list of the Officials of the Health Department will be found at the beginning of this report.

#### 1. (a) Laboratory Facilities.

The district is served very efficiently by the County Laboratory at Stafford.

Results of swabs are given below. —

TABLE A.

DISEASE	RESULTS		TOTALS
	Negative	Positive	
Diphtheria .....	182	21	203
Tuberculosis .....	—	4	4

40 Diphtheria swabs were sent from patients by the Medical Practitioners of the District and the Medical Officer of Health sent swabs (Nose and Throat) from 60 patients.

#### (b) Ambulance Facilities.

The Ambulance service is run by the County Council.

#### (c) Nursing in the Home.

The Home Nursing Services are provided by the County Council and the District Nurses occupy No. 2, Littleworth Avenue, Woodsetton.

#### Maternity Services

This Service is now controlled by the Rowley Regis Area Health Committee and this committee has all the figures for the year. No report is therefore made.

(e) **Hospitals.**

The District is served by the following hospitals :—

GENERAL

Royal Hospital, Wolverhampton.

Guest Hospital, Dudley.

County Public Assistance Hospitals at Sedgley and Wordsley.

MATERNITY

Women's Hospital, Wolverhampton.

Rosemary Ednam Maternity Home, Sedgley.

Sandfield House Maternity Home, Wordsley.

INFECTIOUS DISEASES

Moxley Hospital, Wednesbury.

Bilston Isolation Hospital.

Brierley Hill Isolation Hospital.

OTHER

The Eye Infirmary, Wolverhampton.

PREMATURE INFANTS

Twenty-five children born in the District weighed  $5\frac{1}{2}$  lbs. or less.

**SECTION C.**

**SANITARY CIRCUMSTANCES OF THE AREA**

**Water Supply.**

There has been no change in the water supply to the District. Water is obtained from the South Staffordshire Water Company and from the Boroughs of Bilston and Wolverhampton.

Quite a number of stand taps still supply houses in the area.

**Closet Accommodation.**

There are now only a few houses in the district not connected to the Water Carriage system. This is due to the Sewer not being readily available, and in some cases the houses are too low for the Sewer.

**Public Cleansing.**

The Health Department is not responsible for this Service and the supervision is under the Transport, Cleansing and Stores Committee of the Council.

# ANNUAL REPORT

OF THE

## Chief Sanitary Inspector

FOR THE YEAR 1949

---

*To the Lady Chairman and Members of the  
Health Committee,  
Coseley Urban District Council.*

MADAM CHAIRMAN, LADIES AND GENTLEMEN,

I have pleasure in submitting for your information and consideration my report on the sanitary administration of the District for the year 1949.

The state of the older properties in the district continues to deteriorate, in some cases at a surprising rate. The age of many houses is such that only a continual attention to repair, or alternatively, thorough renovation, will prevent the defects from reaching serious proportions. There are many houses even now on which it seems to be a needless waste of labour and materials to try to keep them habitable.

There is no doubt that owners of house property are passing through difficult times owing to the high cost of repairs, and as no increase of rent is permitted under the Rent Restrictions Act, one wonders what bearing this has on repair work generally. My view is that it is responsible to some degree for the position of housing repairs today.

It is gratifying to report that with persuasion and tact, we are gradually getting the co-operation of the occupiers of food premises to carry out improvements, and in no case have we had to resort to legal action.

In conclusion I would like to refer to the help I have received from the Staff, who have shown a readiness to deal with the very varied difficulties that arrive day by day in a Health Department.

Yours faithfully,

G. H. PARKES,

CHIEF SANITARY INSPECTOR.

## Routine Inspections.

The total inspections of all types numbered 6,734. The number of complaints of all types dealt with was 1,081 and 2,004 visits were paid in connection with the following up of notices.

## Notices.

462 "Preliminary" and 240 "Abatement" notices were served during the year.

## Public Health Act 1936.

Legal action taken due to notice served under the Public Health Act 1936, not complied with was taken in the following instance:—

5, 5a, Hampton Street.

## Summary of Inspections

Bakehouses	.....	.....	.....	.....	43
Complaints	.....	.....	.....	.....	1,081
Cowsheds	.....	.....	.....	.....	8
Checking re overcrowding	.....	.....	.....	.....	95
Drains inspected	.....	.....	.....	.....	133
Factories	.....	.....	.....	.....	64

## Inspection and Supervision of Foods.

During the year, 119 visits were paid to Gill's Bacon Factory, Parkfield Road, and 95 visits to private premises on the occasion of the slaughter of pigs.

The number of pigs slaughtered and inspected was as follows :

### CARCASES INSPECTED AND CONDEMNED

	Cattle exclud- ing Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed (if known) .....	Nil.	Nil.	Nil.	Nil.	2974
Number inspected .....	Nil.	Nil.	Nil.	Nil.	2974
All diseases except Tuberculosis. Whole carcase condemned .....	Nil.	Nil.	Nil.	Nil.	1
Carcases of which some part or organ was condemned .....	Nil.	Nil.	Nil.	Nil.	4
Percentage of the number in- spected, affected with disease other than T.B. .....	Nil.	Nil.	Nil.	Nil.	Nil.
Tuberculosis only : whole carcasses condemned .....	Nil.	Nil.	Nil.	Nil.	1
Carcases of which some part or organ was condemned .....	Nil.	Nil.	Nil.	Nil.	87
Percentage of the number in- spected affected with Tuber- culosis .....	Nil.	Nil.	Nil.	Nil.	.029

## Condemned Meat and Other Foods.

		<i>Weight approx.</i>
84 Pigs' heads	—Affected with	
45 Pigs' frys	—Tuberculosis	1,289 lbs.
4 Pigs' hearts	—Affected with Pericarditis	4 lbs.
1 Pig carcase	—Generalised Tuberculosis	146 lbs.
1 Pig carcase	Erysipelas	67 lbs.
		<hr/>
		1,506 lbs.
	13 cwts., 1 qr., 22 lbs.	<hr/>

## Other Foods.

### CANNED FOODS

	<i>Tins</i>	<i>Tins</i>
Apple puree	.... .... 1	Jellied veal ..... .... 1
Beans	.... .... 11	Luncheon meat ..... .... 5

Mixed pickles	.... .... 1
Pickled cabbage	.... .... 1
Plums	.... .... 1
Sandwich spread	.... 140
Salad cream	.... .... 6
Tomato chutney	.... 1 bottle
Chutney	.... .... 1
Sauce	.... .... 1

### VARIOUS FOODSTUFFS :

Cheese pieces	$10\frac{3}{4}$ lbs.
Groats	33 lbs.
Ham	$23\frac{1}{2}$ lbs.
Semolina	109 lbs.
Split peas	388 lbs.
	<hr/>
	464 $\frac{1}{4}$ lbs.
	<hr/>

## Offensive Trades.

The only premises of the only Offensive Trade in the district (Gut Scraping) are regularly visited and always found to be maintained in a clean and sanitary condition.

## **Fried Fish Premises.**

113 Visits were paid to these premises during the year. In all cases we found the foodstuffs of clean and good quality. There are a few old premises however, where it is next to impossible to bring them up to a good standard, but the occupiers do their best to give a good clean service.

## **Milk (Special Designation) Orders 1936-1946.**

During the year the following licences were issued :—

SUPPLEMENTARY—"Tuberculin Tested"—6.

"Pasteurised"—5.

DEALERS—"Tuberculin Tested"—1.

"Pasteurised"—1.

## **Outworkers Premises.**

132 Outworkers have been notified to this Department and registered. All comply with the requirements, and in no case has Infectious Disease been notified among them.

## FACTORIES ACT, 1937

The following tables give details of inspections made in accordance with the above Act.

### Part I of the Act

#### 1.—Inspections for purposes of provisions as to health (including inspections made by Sanitary Inspectors)

Premises	Number on Register	Number of		
		Inspections	Written notices	Occupiers prosecuted
(i) Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities .....	Nil.	Nil.	Nil.	Nil.
(ii) Factories not included in (i) to which Section 7 applies				
(a) Subject to the Local Authorities (Transfer of Enforcement) Order 1938 .....	98	107	4	Nil.
(b) Others .....	—	—	—	—
(iii) Other Premises under the Act (excluding out-workers' premises) .....	Nil.	Nil.	Nil.	Nil.
<b>TOTAL</b> .....	<b>98</b>	<b>107</b>	<b>4</b>	<b>Nil.</b>

2.—Cases in which **Defects** were found.

Lampshades	Nil.	Nil.	Nil.	Nil.	Nil.
<b>TOTAL</b>	132	Nil.	Nil.	Nil.	Nil.

## **Disinfections.**

During the year 109 houses were disinfected after cases of Scarlet Fever, Diphtheria, etc.

## **Disfestations.**

104 Houses were disinfested with a spray solution containing not less than 5% D.D.T. or with Thermatox Fumigators.

## **Moveable Dwellings.**

These wanderers make their appearance from time to time on unlicenced land in the district, and of course without regard to whom the land belongs. They make themselves a nuisance by their habits, much to the disgust of the people in nearby houses, also by going to houses asking for water at all times of the day. During the year 166 visits have been made to these dwellings so as to cut their stay in the district as short as possible, and in this regard I would like to thank the Police for their willing assistance.

## **Overcrowding.**

The problem today is not so much overcrowding in single families due to normal conditions, but to two or more families living in small houses, and having to make one room of the house into a bed-sitting room with all its inconveniences. Thus it often happens that one room is overcrowded, but taking the house as a whole, it is not overcrowded in accordance with the Housing Act (Overcrowding) 1936. On the other hand we find cases of overcrowding in single families, who are quite satisfied with their conditions and who have never applied to the Authority for better housing, or even bothered to look for another house larger than their own.

## **Food Premises.**

These premises are kept under supervision, yet much remains still to be done, in my opinion, to bring conditions to the perfection that every Sanitary Inspector would like to see.

We have however had encouraging results in shops particularly where Ice Cream is sold, by the provision of wash-hand basins with constant hot and cold water over, in the shop itself. If this is not possible owing to the position of the premises the sale of pre-packed Ice Cream only is allowed.

We have no makers of Ice Cream by the Heat Treatment method, and only one by the Cold-mix, and in the instance mentioned they anticipate giving up the making of same, and obtaining their Ice Cream like all the others from makers outside the Area who have the necessary equipment.

There is however, a bone of contention among the shop-keepers and this is due to the fact that outsiders come into the district with their various vehicles, without registration, water supply, etc., and the vehicles are not always as clean as one would like, when the shop keepers must be registered and their premises conforming to a standard.

In my opinion it is necessary that all mobile sales vehicles should be registered in the District where they sell Ice Cream, foodstuffs, etc., and standards laid down so as to the type and construction of the vehicle from which such sales are made. In other words there should be no possibility of getting away with things by the unscrupulous traders.

### **Insect Pests.**

We have investigated a good number of complaints regarding the presence of wood beetles both in the bedroom floors (particularly) of dwelling houses and in furniture (usually utility). The occupier is concerned chiefly with the fact of which was affected first, the floor or their furniture? While we do not decide this question, we give advice on how to treat furniture and other woodwork.

G. H. PARKES.  
CHIEF SANITARY INSPECTOR.

## **SECTION D.**

### **HOUSING ACT 1936. Section 11.**

The following houses were represented during the year:—

Ash Street, 52.  
Albert Street, 46.  
Bloomfield Road, 24, 25.  
Brierley Lane, 23, 24.  
Broad Lanes, 97, 98, 99, 100.  
Bridge Street, 12, 13, 14.  
Chapel Street, 32, 33, 34, 35.

Duck Street, 4, 11.  
Edge Street, 14.  
High Street, 11, 149.  
Stanleys Lane, 4, 5, 10.  
Vernon Street, 15, 16.  
Wallbrook Street, 18, 19.

In the case of No. 11, High Street, an appeal against the demolition order was made by the Owner to the County Court. After the case had been heard and a visit paid to the property by the Judge, the order made by the Council was upheld.

---

Demolition orders were made on the following properties :—

Ash Street, 52.	Duck Street, 4, 11.
Albert Street, 46.	Edge Street, 14.
Bloomfield Road, 24, 25.	High Street, 11, 149.
Brierley Lane, 23, 24.	Stanleys Lane, 4, 5, 10.
Broad Lanes, 97, 98, 99, 100.	Vernon Street, 15, 16.
Bridge Street, 12, 13, 14.	Wallbrook Street, 18, 19.
Chapel Street, 32, 33, 34, 35, 36.	

Houses demolished due to action taken :—

Albert Street, 46.	Vernon Street, 15, 16.
Brierley Lane, 23, 24, 25, 26.	Wallbrook Street, 4, 19.
Highfield Road, 28.	Wednesbury Oak Road, 4.
Providence Road, 9, 10.	Rose Street, 37, 40.
Regent Street, 33, 34.	
Dolmans Row, 9, 10.	

Houses occupied, on which demolition orders are operative :—

Bloomfield Road, 24, 25.	Parkfield Road, 735.
High Street, 149.	Prestons Row, 1.
Ash Street, 25.	Parkfield Colliery, 6.
Parkes Hall Road, 14.	Rose Street, 38.

Houses void on which demolition orders are operative :—

Ash Street, 8, 9, 24.	High Street, 134.
Bloomfield Road, 21.	Parkfield Road, 734, 740.
Brierley Lane, 18, 19.	Parkfield Colliery, 6.
Duck Street, 4, 11.	Parkes Hall Rd., 10, 11, 12, 13.
Havacre Lane, 9.	Stanleys Lane, 4, 5, 9.

## SECTION E.

### Inspection and Supervision of Foods.

Cowsheds and milkshops in the district are visited by the Sanitary Inspector who is also responsible for meat inspection.

The administration of the Food and Drugs Act is under the County Council.

## SECTION F.

### Prevalence of, and Control over, Infectious and Other Diseases.

#### Notifications.

During the year 772 cases of Infectious Diseases, excluding Tuberculosis were notified and a classification is given below and in Table IX.

Scarlet Fever .....	.....	.....	58
Pneumonia .....	.....	.....	72
Diphtheria .....	.....	.....	35
Erysipelas .....	.....	.....	15
Ophthalmia Neonatorum .....	.....	.....	3
Whooping Cough .....	.....	.....	108
Measles .....	.....	.....	437

#### Immunisation Against Diphtheria.

During the year we received 35 notifications of Diphtheria, and had 2 deaths.

#### Tuberculosis.

43 cases were notified and there were 20 deaths.

#### NOTIFICATIONS

Year.	Males	Females	Total.
1949	28	15	43
1948	32	25	57
1947	29	10	39
1946	20	20	40
1945	26	18	44

Our Health Visitors made 24 first visits and 1,373 re-visits to tuberculosis cases during the year.

TABLE I.  
Deaths from various causes

	Causes of Death.	Males	Females	Total
1	Typhoid and Paratyphoid Fever ....	—	—	—
2	Cerebro Spinal Fever	—	—	—
3	Scarlet Fever ....	—	—	—
4	Whooping Cough	—	—	—
5	Diphtheria	1	1	2
6	Tuberculosis of Respiratory System	12	5	17
7	Other forms of Tuberculosis ..	3	—	3
8	Syphilitic Diseases	—	—	—
9	Influenza	4	1	5
10	Measles	—	1	1
11	Acute Poliomyelitis & Polio-enceph.	—	—	—
12	Acute Infectious Encephalitis	—	—	—
13	Cancer of buccal cavity & oesophagus (M) uterus (F). ....	1	1	2
14	Cancer of stomach and duodenum	3	3	6
15	Cancer of Breast	—	6	6
16	Cancer of all other sites	14	16	30
17	Diabetes ....	—	1	1
18	Intra-cranial vascular lesions	13	14	27
19	Heart Disease	47	37	84
20	Other diseases of Circulatory System	4	2	6
21	Bronchitis	19	16	35
22	Pneumonia	11	2	13
23	Other Respiratory Diseases	—	—	—
24	Ulcer of Stomach or Duodenum	3	2	5
25	Diarrhoea under 2 years	2	—	2
26	Appendicitis	—	—	—
27	Other Digestive Diseases	—	2	2
28	Nephritis	1	2	3
29	Puerperal & Post-abort. Sepsis	—	—	—
30	Other Maternal Causes	—	—	—
31	Premature Birth	1	1	2
32	Congenital Malnutrition, Birth Injury, Infantile Diseases	5	3	8
33	Suicide	—	2	2
34	Road Traffic Accident	3	—	3
35	Other Violent Causes	4	3	7
36	All other causes	18	27	45
